

Class 1

Building Product Information Sheet

DWV

Building Product Information Requirements (BPIR)

Version: 1

Date Created: December 2023

Product Name	100mm DWV Slip Coupling FxF
Product Identifier(s)	1111005

SCOPE OF USE

DWV pipes and fittings are suitable for both residential and commercial applications and are integral components of a comprehensive plumbing and drainage system. The range includes various sizes of pipes and fittings, such as bends, junctions, gully traps, and other access fittings. Installation must be carried out by a licensed plumber or drainlayer following AS/NZS3500 Plumbing Regulations. These products can be installed either underground or above ground.

CONDITIONS OF USE

DWV pipes and fittings are manufactured in compliance with AS/NZS1260 and carry Watermark certification. All products are designed to meet the physical and mechanical standards of AS/NZS 1260:2017. Installation must be performed by a licensed plumber or drainlayer in accordance with AS/NZS3500 plumbing and drainage regulations. The design of the entire system should also adhere to AS/NZS3500 standards.

RELEVANT BUILDING CODE CLAUSES

"B2 Durability — B2.3.1 (a) F2 Hazardous building materials — F2.3.1 G13 Foul water — G13.1.1, G13.3.2"

CONTRIBUTIONS TO COMPLIANCE

"B2.3.1 (a) (ii) and (iii): DWV pipes and fittings are warranted to be fit for purpose when installed according to the relevant installation standards, AS/NZS3500, and are covered against defects resulting from manufacturing faults. These products are manufactured in compliance with AS/NZS1260 and adhere to the Quality Management System ISO 9001: 2015. Durability standards are as follows: A) 50-year durability for areas that are difficult to access or replace, B) 15-year durability for areas moderately difficult to access or replace, and C) 5-year durability for areas that are easy to access and replace. F2.3.1: DWV pipes and fittings are safe to handle when installed according to the provided instructions. There are no requirements for this product to comply with Acceptable Solution F2/AS1, First Edition Amendment 3, 2017. G13/AS1/AS2 - G13/VM1/VM2: These products comply with the standards when installed in accordance with AS/NZS3500 Plumbing Regulations."
