

Building Product Information Sheet

Toilets

Building Product Information Requirements (BPIR)

Version: 1

Date Created: December 2023

Product Name	In-Wall Cistern Flush Panel Round Buttons Black
Product Identifier(s)	235503

SCOPE OF USE

Our toilet products, including suites, pans, cisterns, bidets and accessories, are designed for versatile use in various settings. They offer options for floor or wall mounting. Models feature different water inlet configurations, such as top rear, side, or bottom, ensuring compatibility with various plumbing setups. Engineered to enclose water efficiently, our products provide reliable performance and adaptability for diverse environments.

CONDITIONS OF USE

Toilets must be installed by a licensed plumber in accordance with AS/NZS 3500 and AS/NZS 6400 standards, on flat surfaces free of movement. For bidet seats, ensure High Hazard backflow prevention is installed (not supplied). The maximum working pressure is 500 kPa; if exceeded, a pressure-limiting valve must be used. The toilet pan should be firmly fixed to the floor with the supplied kit. The product is suitable for both domestic and commercial use, and is cleanable and impervious to moisture. Use soapy water or approved cleaners for maintenance; avoid abrasive materials.

RELEVANT BUILDING CODE CLAUSES

"B2 Durability — B2.3.1 (c) F2 Hazardous building materials — F2.3.1 G1 Personal Hygiene — G1.3.2 G12 Water Supplies — G12.3.2"

CONTRIBUTIONS TO COMPLIANCE

"B2 Durability This product is a component within the plumbing services of a building, typically controlling the flow water at a terminus, is easy to access and replace, and failure would be easily detected during normal use. E3 Internal Moisture Surfaces of this product likely to be splashed or become contaminated during the intended use of the building, must be impervious and easily cleaned. F2 Hazardous Building Materials This product is constructed of materials that will not emit harmful concentrations of substances from exposed surfaces. G1 Personal Hygiene This product is a sanitary fixture constructed and designed to be installed to discharge to a plumbing and drainage system as required by G13 ""Foul Water"" when water-borne disposal is used. This product is a sanitary fixture constructed and designed to be installed that facilitates sanitation. This product is a sanitary fixture constructed and designed to be installed to allow effective cleaning."
